RE: Program #0317

Previous Accreditation Status: 8 Years
Most Recent Site Visit: 11/2019

Dear Dr. Burkee:

After review of the requested interim report, the continuing accreditation status of the baccalaureate degree radiography program sponsored by Avila University was considered at the January 16, 2024 meeting of the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA) for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. Specialized accreditation awarded by the JRCERT offers institutions significant value by providing peer evaluation and by assuring the public of quality professional education in the radiologic sciences. The program was evaluated according to the **Standards for an Accredited Educational Program in Radiography (2021)**. The JRCERT took the following action:

REDUCTION OF ACCREDITATION TO A PERIOD OF FIVE YEARS.

Consistent with JRCERT Policy 10.100, this accreditation action is not subject to appeal.

The Committee based this decision on the program's non-compliance with **Standards One and Five:**

Objective 1.1 - The sponsoring institution and program provide students, faculty, and the public with policies, procedures, and relevant information. Policies and procedures must be fair, equitably applied, and readily available.

Objective 5.4 - The program assures that medical imaging procedures are performed under the appropriate supervision of a qualified radiographer.

The program is advised that magnetic resonance imaging (MRI) policies should reflect that students are mandated to notify the program should their screening status change.

The next site visit is tentatively scheduled for the First Quarter of 2025. The continuing accreditation materials will be forwarded to the program at a future date and will include a submission timetable.

Jim Burkee, Ph.D.

Page 2

Consistent with JRCERT Policy 11.400, the maximum compliance timeframe is 36 months. Based on the areas of non-compliance, the Board of Directors are awarding a 24-month compliance timeframe. Therefore, the program must document compliance with all accreditation standards no later than **January 16, 2026**.

As required by the USDE and consistent with the **maximum** compliance timeframes set forth in JRCERT Policy 11.400, when the JRCERT Board of Directors determines that a program has failed to document compliance with the **Standards** and has not satisfactorily addressed the identified deficiencies, the existing accreditation status will be withdrawn. Such involuntary withdrawal of accreditation is considered an adverse accreditation action. The JRCERT defines an adverse action as involuntary withdrawal of accreditation. Involuntary withdrawal of accreditation will generally, but not necessarily, occur after a Probationary Accreditation status has been awarded. The board may take adverse action prior to the expiration of the maximum compliance timeframe. Probationary status, as well as an adverse accreditation action, requires written notification to the United States Secretary of Education, the appropriate State licensing or authorizing agency, appropriate institutional and/or other accrediting agencies, and the public.

The program is also advised that consistent with JRCERT Policy 11.600, the JRCERT reserves the right to conduct unannounced site visits of accredited programs. The sponsoring institution would be responsible for the expenses of any on-site evaluation.

The Joint Review Committee on Education in Radiologic Technology Directors and staff encourage you and the program faculty to continue your efforts in developing a quality educational program. If we can be of further assistance, do not hesitate to contact the office.

Sincerely,

Tracy Herrmann, Ph.D., R.T.(R), FAEIRS
Chair
